

Mrs. Courtney Winn Hamilton

I am Courtney Winn Hamilton, Alabama Technology In Motion (TIM) Instructional Specialist for Region Two (Athens State University). I am a native of Huntsville, Alabama where I matriculated through the Huntsville City School System's magnet program K-12. I graduated from Tuskegee University in 2010 with a degree in Elementary Education and earned my Masters of Arts in Teaching and Learning (MATL) with a concentration in Curriculum and Instruction in 2011. I am currently enrolled in the doctoral program at Nova Southeastern University where my concentration is Instructional Leadership.

Teaching with a true understanding and demonstration of effective technology integration and infusion is a true passion of mine. I consider myself a perpetual learner thus I take pleasure in continuously learning about new and innovative technology resources that will ultimately enhance the overall learning experience for all students.

I am a fervent believer that technology has the ability to change and positively impact the learning experience of all students. This is accomplished when educators are informed and knowledgeable of the various technology resources that are available to them in addition to knowing when the resources would be of benefit and used to their maximum potential concerning curriculum and overall learning outcomes. With this in mind, it is my philosophy that *"everyone is capable of learning yet we all have something to teach..."*

In my spare time I enjoy spending time with my family, reading, traveling, working with the youth in my church, and public speaking. My husband (David), our toddler daughter (Jackson), and I reside in Madison County Alabama with our Yorkie-Poo, Max.
